PermeOx Plus[®] Pricing

(Effective 1/1/03)

PermeOx[®] Plus is a low-cost biological enhancement/oxidation product offered for use in the environmental industry for phytoremediation, municipal and industrial wastewater treatment and odor control, as well as to accelerate bioremediation of soil and groundwater contamination. The original formulation of PermeOx[®] was refined in 2001 by FMC Corporation into **PermeOx[®] Plus** (patent pending), a product with less dust, higher oxygen content (18% active oxygen versus 10% for its leading competitor), longer oxygen release rates and available at a lower cost than competitive products.
